1 Executive Summary

The purpose of this plan is to turn the firm's digital presence from "occasional posting" into an **integrated legal marketing system** that serves three goals in parallel:

1. **Client acquisition (Lead Generation):** a continuous, measurable flow of qualified leads to the Sales and Business Development team through the CRM.
2. **Presence on Google (SEO + reputation):** the firm appears on the first page of search results for the targeted legal keywords in the UAE, and its image on Google (Business Profile, reviews, Knowledge Panel, news) is professional and under control.
3. **The founder's personal brand:** building a media "halo" around Dr. Rashid Al Kaitoob that makes him the first reference for commentary on new laws, decrees and decisions, to the point where he becomes the trend whenever major legislation is issued.

Channel allocation logic (as defined by management):

Channel	Direction	Audience	Primary goal
X (formerly Twitter)	Legislative and legal commentary in Dr. Rashid Al Kaitoob's voice: laws, decrees, decisions, rulings	Decision-makers, journalists, elites, those following legislative affairs	Authority + owning the trend

Instagram	Brand awareness + leads	Individuals, business owners, youth and professionals	Awareness + leads
LinkedIn	Business-to-business (B2B) and business-to-government (B2G), company structure, expertise, international partnerships	Corporates, investors, government entities, international law firms	Institutional partnerships and contracts
Google	Search engine optimization + image and reputation	Everyone searching for a legal service in the UAE	First-page presence + trust
Website	The hub into which all channels feed	Everyone	Conversion and the knowledge archive
YouTube / Podcast	Long-form content: episodes, webinars, workshops	Audiences seeking depth	Authority + feeding the other platforms

5 Channel-by-Channel Strategy

5.1 X (formerly Twitter)

Direction: the legislative voice of Dr. Rashid Al Kaitoob. The primary platform for building authority and owning the trend.

Accounts: - Dr. Rashid Al Kaitoob's personal account (primary). - The firm's account (supporting; reposts and adds the institutional angle).

What we publish:

Type	Frequency	Description
Immediate commentary on new legislation	Whenever a law, decree or decision is issued (within 2-6 hours)	A first tweet with the news + a thread of 5-10 tweets explaining what changed, who is affected, what to do
Weekly thread "A law in 10 tweets"	Once a week	Simplifying an existing law or an important article
Short legal opinion	3-4 times a week	A single tweet with a clear position on a public issue with a legal dimension
Short vertical video (under 90 seconds)	2 per week	Dr. Rashid explains one point on camera
Audio space (X Spaces)	Once a month	Open discussion on new legislation, with a guest
Repost with commentary	Daily	Engaging with official entities' news (Ministry of Justice, courts, economic authorities)

Tone rules on X: composed, direct, no advertising language, promotes a service directly in no more than 1 of every 10 posts. Cites the law and article numbers precisely. Uses clear standard Arabic, with English where economic legislation calls for it.

KPIs: follower growth, impressions of legislative threads, number of quotes by journalists and verified accounts, number of times his name appears in the local trend or in the legislation conversation within 24 hours.

The "Legislative Radar" mechanism:

1. Daily (morning) scan of the Official Gazette, the Ministry of Justice and Supreme Legislation Committee websites, government entities' accounts and the UAE legislative portals.
2. When legislation is issued: the legal researcher prepares a one-page summary within one hour.
3. The content writer turns it into a thread and a video draft within one hour.
4. Dr. Rashid approves or amends (a dedicated WhatsApp channel for fast approval).

5. Publish on X first, then LinkedIn (institutional version), then Instagram (design + reel), then an article on the website within 24-48 hours to capture Google search.

5.2 Facebook

Direction: mass-market and broad, simplified language, direct search for individual clients and small-business owners.

What we publish:

Type	Frequency
"Legal Q&A" post in simple language (family, labour, tenancy, cheques, debts, real estate, residency)	3 per week
Short video by the consultants answering a common question	2 per week
Warning post ("5 mistakes before signing a tenancy contract")	1 per week
Live "open general consultation"	Once a month, 30-45 minutes
Occasion or community post	Per the calendar

Lead generation on Facebook: - "Message us" button to WhatsApp Business with an auto-reply asking 3 qualifying questions (matter type, emirate, preferred call time). - Lead Ads by service type with instant forms, geo-targeting within the UAE, and language segmentation (Arabic/English/Urdu/Hindi depending on each service's viability). - Facebook groups: value-first participation (no direct advertising) in residents' and business owners' groups; 3 helpful answers per week from the firm's account. - Retargeting of website visitors and viewers who watched more than 50% of a video.

KPIs: new weekly conversations, cost per lead, share of qualified leads from Facebook, video reach.

5.3 Instagram

Direction: brand awareness + leads. The primary visual platform.

What we publish:

Type	Frequency
Short educational Reels: “A law in one minute”	3 per week
Designed carousel: step-by-step explanation or before/after a legal amendment	2 per week
Stories	Daily: 3-5 stories (question of the day, poll, behind the scenes, repost of the day’s post, call to book a consultation)
Motion graphics for new legislation	On the event + 1 per week
Team member or institutional-structure feature	1 every two weeks
Collab Live with a personality or entity	1 per month
Permanent highlights: our services, our team, FAQs, client reviews, events	Monthly update

Lead generation on Instagram: - Bio link to a unified landing page with options: book a consultation / WhatsApp / download a free guide. - Daily “question” and “poll” stickers in Stories to capture needs and direct replies. - Paid boosts on the best-performing Reels with clear lead-generation terms. - Reply to every comment and message within one hour during working hours.

KPIs: reach, saves and shares (more important than likes), bio link clicks, inbound messages, engagement rate ≥ 3%.

5.4 LinkedIn

Direction: B2B and B2G; showcasing the institutional structure, expertise, international partnerships and the Chinese Desk.

Accounts: - The firm’s Company Page. - Dr. Rashid Al Kaitoob’s personal account. - Accounts of the General Manager, Head of BD and the consultants (the “Firm Ambassadors” programme: each consultant posts once a week with the department’s support).

What we publish:

Short video interview with a consultant or an international partner	1 every two weeks
Document (PDF carousel) titled "The Corporate Guide to …"	1 per month

Lead generation on LinkedIn: - Direct targeting (Sales Navigator) by the BD team of legal affairs managers, CFOs and founders; Marketing supplies the supporting content (follow-up messages, guides, webinar invitations). - Lead forms through webinars recorded on LinkedIn. - Personal response to every comment from an institutional or government account. - Chinese content: a short Mandarin version of the Chinese Desk's posts monthly, distributed through the firm's partners on Chinese platforms.

KPIs: page views from target companies, followers in decision-making roles, newsletter subscribers, webinar registrations, meetings generated.

Summary here; full details in Section 6. - **Organic search (SEO):** first-page presence for the legal keywords in Arabic and English. - **Google Business Profile:** complete information, photos, weekly posts, Q&A, verified reviews ≥ 4.8. - **Knowledge Panel for the founder and the firm:** through consistent data across all platforms, press articles, Wikidata and structured data markup (Schema). - **Google News / Discover:** through regular press publishing and partnerships with news outlets. - **Google Ads (Search):** campaigns on high-intent keywords ("corporate lawyer Dubai", "legal consultation Abu Dhabi") with a budget governed by cost per lead. - **YouTube (owned by Google):** long episodes and explainer videos that appear in search results.

5.6 Website

Role: the hub into which all channels feed; the source of truth for content; the primary conversion tool.

Q1 requirements: - Clear page architecture: Home, About the firm and institutional structure, Team (a page per consultant), Services (a page per service in Arabic and English, with a Chinese version for services tied to the Chinese Desk), Blog/Knowledge Centre, Media and appearances, Contact. - Landing pages for each campaign with a short form + WhatsApp button + call button. - Automatic integration: every form → CRM → instant notification to the lead coordinator and the BD Assistant. - Load time under 3 seconds on mobile, security certificate, full mobile

compatibility. - Initial consultation booking system (embedded calendar). - A continuously updated “Legislation Tracker” page (becomes a cited reference that earns backlinks). - A “Dr. Rashid in the Media” archive collecting every external appearance.

KPIs: organic visits, conversion rate (visit → form/WhatsApp) ≥ 3%, time on page, bounce rate, number of indexed pages.

5.7 YouTube and the Podcast

- **The firm’s YouTube channel:** the repository for all long-form video: webinars, workshops, episodes, interviews. 2 long videos per month + all Shorts from the Reels.
- **The firm’s podcast (working title: “Letter of the Law” or “With Al Kaitoob”):** an episode every two weeks (30-45 minutes) in which Dr. Rashid or one of the consultants hosts a guest from business, government or the legal profession. Published as audio on the audio platforms and as video on YouTube, and cut into 6-10 short clips per episode to feed the other platforms.
- **Double benefit:** every guest shares the episode with their own audience, so the podcast also becomes a tool for presence on third-party platforms.

5.8 WhatsApp Business

- A single number for leads from all platforms, with a qualifying auto-reply and tag classification (source platform, service type, emirate).
- Monthly broadcast list (with subscribers’ consent) of the most important legislative updates.
- Service-level agreement: human reply within one hour during working hours, and within the first hour of the next day outside them.

5. **Keyword research and cluster building:** for each service, a cluster of one primary keyword + 10-30 secondary keywords + FAQs, in Arabic and English (sample in Appendix B).

6.2 Content build (ongoing from month 2)

Refreshing old articles	4 per month	Holding positions

Quality standard: every article is written or reviewed by a lawyer and signed in their name (E-E-A-T: experience, expertise, authoritativeness, trust), with an author page for each consultant linking to their biography and credentials.

- **Legal and business directories:** Legal 500, Chambers, UAE lawyer directories, trusted business directories; consistent data everywhere (name, address, phone).
- **Press publishing:** a press release or op-ed every month in an Arabic or English news outlet in the UAE, with a link to the website.

- **Branded search:** the first page for the firm's name and Dr. Rashid Al Kaitoob's name must be 100% under control: website, LinkedIn, X, Instagram, YouTube, interviews, press articles, Business Profile. Monthly monitoring, pushing any unwanted result to the second page through content.
- **Founder's Knowledge Panel:** an official biography page on the website, a Wikidata entry, consistent name and photo, press articles naming him with his title, Person Schema markup.

12 Lead Generation Funnel and Sales Handoff

Interest Stage 2	Articles, guides, webinars, newsletters
Consideration Stage 3	Case studies, reviews, team page, service page
Action Stage 4	Form / WhatsApp / call / consultation booking
Qualification Stage 5	3 qualifying questions + A / B / C classification
Handoff Stage 6	CRM → BD Assistant / Sales within one hour

- WhatsApp Business (linked from every platform).
- Lead Ads on Facebook and Instagram.
- Webinar and workshop registrations.
- Guide (PDF) downloads in exchange for an email address.
- Direct messages on the platforms.
- Phone calls (a dedicated tracking number for digital).

12.3 Qualification and classification

Class	Criterion	Action
A (hot)	A company or individual with a specific matter, a budget and a timeline	Call from Sales within 60 minutes
B (warm)	A clear need without urgency	Call within 24 hours + send a suitable guide
C (cold)	A general or educational enquiry	Informational reply + add to the newsletter and retargeting

12.4 Marketing-to-Sales service agreement

- Marketing hands over every lead with its source, service type and qualification notes in the CRM within one hour of receipt.
- Sales updates the status of every lead within 48 hours (contacted / meeting / proposal / closed / lost and why).
- A weekly 15-minute quality meeting: which leads were truly qualified, and which channel produces the best quality.
- Sales gives Marketing the 10 most frequent client questions each month; these become content.

12.5 Paid advertising (operating principle)

- Start in Q2 after organic content has stabilised.
- Only 3 services at first (highest margin and highest demand).
- Measure by cost per qualified lead, not by clicks.
- Rule: any campaign that fails to achieve an acceptable cost after 14 days is adjusted or stopped.

13 Presence on Third-Party Platforms (Earned Media & Guesting)

Principle: every month, at least two appearances by Dr. Rashid Al Kaitoob or one of the firm's consultants on a platform we do not own, because other people's audiences are the fastest route to widening the halo, earning backlinks and building trust.

13.1 Target categories

Category	Examples of the type	What we offer them	Annual target
Arab and Emirati podcasts (such as Arabcast and similar influential podcasts)	An episode with Dr. Rashid or one of the senior consultants (such as whoever management nominates as the firm's second face)	The founder's story, legislation that matters to the audience, advice for investors	8 episodes
TV and radio	Morning and business programmes, news bulletins when a law is issued	Fast, reliable legal commentary	6 appearances
Press and news websites	Arabic and English UAE newspapers, business platforms	A monthly op-ed, quotes for news stories	12 articles/quotes

13.2 Execution mechanism

1. **Target list:** 100 platforms/entities ranked by impact and fit, built in month 1 and updated monthly (template in Appendix D).
2. **Media kit:** Dr. Rashid Al Kaitoob's biography in three languages, professional photos, topics he speaks on, excerpts from past appearances, contact details. Completed in month 1.

3. **Requests:** at least 5 requests per month, each a tailored message proposing a specific topic tied to recent legislation or an event.
4. **Preparation:** before every appearance: a key-points sheet + 3 core messages + one call to action (visit the website / follow the account).
5. **Post-appearance leverage:** cut 5-8 clips, a post on every platform, add to the “In the Media” page, request a link to the website, thank the host publicly, send the episode to Class B leads.
6. **Measurement:** number of appearances, estimated reach, new visits and followers within 72 hours of the appearance, backlinks earned.

14 The Founder's Personal Brand: Building the "Halo" and Owning the Trend

Goal: for Dr. Rashid Al Kaitoob to become the first name that comes to the public's and the media's mind whenever an important law, decree or decision is issued in the UAE, and for his commentary to become the talk of the day.

14.1 Positioning

- **Editorial tagline:** "The legal reference that explains the law to you before it surprises you."
- **The three angles:** (1) the explainer of new legislation, (2) the adviser to investors and corporates, (3) the institutional leader building a firm to international standards.
- **What he does not do:** does not comment on the details of ongoing cases, does not enter personal disputes, does not promote directly.

14.2 Permanent assets (built in Q1 and Q2)

- An official biography page on the website (Arabic/English/Chinese) with Person Schema markup.
- A professional media kit and a professional photo session (formal portraits + natural working shots + introductory clips).
- Account verification (blue/official badge) on X, Instagram, LinkedIn and Facebook.
- A Wikidata entry and consistent name, photo and title across all platforms to form the Google Knowledge Panel.
- An "In the Media" archive collecting every appearance.

14.3 Signature content

14.4 Trend protocol when major legislation is issued

Time from issuance	Action

1-3 hours	First tweet with a clear position and a strong headline; a 7-10 tweet thread; fast approval via the approval channel
3-6 hours	60-90 second vertical video; a concise design; an institutional LinkedIn post; notify 10 journalists from the inner list that Dr. Rashid is available for comment
6-24 hours	A comprehensive article on the website (SEO); an emergency audio space if the legislation is major; limited paid boost of the thread/video to decision-makers and journalists
24-72 hours	Media appearance (TV/radio/press); Q&A in Stories; WhatsApp broadcast to subscribers; measurement: impressions, quotes, trends

14.5 Expanding presence

- **The List of 50:** 50 journalists, opinion leaders and business influencers with whom an ongoing relationship is built (engagement, congratulations, sharing their content, quarterly meetings).
- **Awards and rankings:** annual nominations for legal rankings and business awards, and showcasing them.
- **Authorship:** academic/professional articles, the annual e-book, contributions to entities' publications.
- **The firm's annual event:** a legal forum or gathering associated with his name that becomes an annual date for the media and corporates.
